

TEBA

Approved contractors for Telstra Equipment Building Access (TEBA)

When undertaking construction activities to install your equipment in Telstra equipment buildings, you are required to use a contractor approved by Telstra for TEBA work. If your approved scope of work in your design and construction proposal includes the assessment and/or installation of DC/AC power or air-conditioning equipment, the contractors must also be approved to undertake this work. Currently Silcar Communications is the only approved contractor for Primary Power Works.

If you are a contracting organisation and want to be assessed with the aim of becoming an approved TEBA contractor, you should contact the Technical Standards Manager on 03 9634 2800.

As at: 5 November 2008
